HAND IN ELECTION. Beverly, Mass., July 14.—It is auth-oritatively announced that president Taft's participation in the campaign this fall will be wholly of a general character. Whatever the president may have to say on politics will have to do with the work of the last congress and in proclaiming the fact that to his way of thinking the Republican representatives placed in power two years ago have kept their faith and have carried out the party platform. The president will attempt to read no one out of the party. Neither will he have any candidate for any office. Personal friendship for William Loeb led the president in a friendly way to suggest to him that he would make a good candidate for governor of New York. But he has stated that it was his intention not to interfere in the affairs of any state and will strictly adhere to this policy.
